ALLOUCHE MOHAMED ABDERRAHMANE

Full Stack Web Developer

✉abdrahmane.all23@gmail.com   LinkedIn: **profile**   📞+213778337081   📍 Saida,saida,Algeria

SUMMARY

Motivated Full Stack Web Developer with expertise in Next.js, UI design, and optimizing user experiences. Proven track record in building intuitive and high-performance digital products. Passionate about leveraging cutting-edge technologies to enhance functionality and solve complex problems. Dedicated to continuous learning and staying at the forefront of web development trends.

EDUCATION

Computer Science, Université Saida Dr Moulay Taher

EXPERIENCES

Weather App:
Developed a responsive weather app using React.js and Tailwind CSS, integrated with external APIs to provide real-time weather data. Features include hourly/daily forecasts, an intuitive search interface, and a polished UI for enhanced usability.
Source: app

Portfolio:
Built an interactive 3D portfolio using React.js and Three.js to present personal projects and skills. Designed for smooth navigation, responsive layout, and engaging animations.
Source:app

Todo List App:
Designed a task management tool using React.js and Tailwind CSS. Integrated API support and interactive features for efficient task tracking and user interaction.
Source:app

Hajj Lottery App:
Created a full-stack application to manage Hajj registration and lottery selection. Utilized React, Tailwind CSS, and Three.js for the frontend, with Node.js, Express, and MongoDB for the backend. Includes user registration, document upload, real-time lottery results, and admin tools.
Source:app

Online Store:
Developed a responsive e-commerce website using React.js and Tailwind CSS. Implemented features such as product filtering, search, and a streamlined checkout system to ensure a smooth shopping experience.
Source:app

Coffee Shop:
Built a visually appealing website for a coffee shop using React, Tailwind CSS, and GSAP for animations. Displays menu, product offerings, and contact abformation in a clean and responsive layout.
