

ALLOUCHE MOHAMED ABDERRAHMANE

SOFTWARE ENGINEER & FULL-STACK DEVELOPER

Saida,Algeria | allouche.mohamed.abderrahmane@outlook.com | +213778337081 | Allouche.dev
[LinkedIn](#) • [GitHub](#)

PROFILE

Full-Stack Web Developer with production experience shipping complete applications across the React/Node.js ecosystem. Owns the entire development lifecycle from Figma wireframe to deployed, monitored product with a security-first approach to API design and frontend architecture. Award-winning developer and national hackathon finalist with a consistent record of delivery under competitive pressure.

EDUCATION

Bachelor of Computer Science | Université Dr. Moulay Tahar, Saïda, Algeria Sep 2023 - june 2026

- **Relevant Coursework:** Web Security · Web Developement · Data Structures & Algorithms · Operating Systems · AI & Machine Learning · Linux Systems · Language Theory & Compilation

RESEARCH INTERESTS

Secure AI Systems, Network Security, Distributed Systems Security, Automated Vulnerability Detection, and Secure Software Architecture.

TECHNICAL SKILLS

Frontend : React.js, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, Vite, HTML5, CSS3
Backend: Node.js, Express.js, FastAPI, Django, REST API Design, JWT, RBAC, PHP, Python, Go, Java, C
Databases: PostgreSQL, MySQL, MongoDB
Cloud & DevOps: Docker, Git, GitHub, Google Cloud Platform, Vercel, CI/CD, Bash Scripting
Security Tools: Wazuh (SIEM), Burp Suite, Metasploit, Nmap, Wireshark, Aircrack-ng, Kali Linux
Security Domains: Penetration Testing, Vulnerability Assessment, OWASP Top 10, API Security, Network Defense, Web App Security
Systems: Linux (Advanced), Kernel Compilation, System Hardening
Other : Figma, Scikit-learn, Responsive Design, Accessibility

EXPERIENCE

Cybersecurity Engineer SocShield DZ Algeria -Hybrid	Present
• Security Infrastructure & SIEM: Lead the end-to-end implementation and professional configuration of Wazuh for threat detection, log analysis, and endpoint security. • Red & Blue Team Operations: Execute penetration tests to identify critical vulnerabilities, followed by immediate remediation and defensive hardening (Blue Team) to close security gaps. • Network Defense: Manage network security protocols and architecture to ensure robust protection against external threats.	
Nabta AI — FORSA Hackathon Finalist (Algerie telecom	2025
• Co-built an AI-powered irrigation decision system, engineering the end-to-end ML pipeline from sensor data • ingestion through Scikit-learn classification to RESTful API output. • raw input to actionable predictions.	

Pulse-Chat – Real-Time Chat Application

2026

- Built a real-time messaging frontend connected to a Python backend via WebSockets and REST, with persistent message storage.
- Implemented session authentication, request validation, and rate limiting on the backend to prevent endpoint abuse and flooding.

Devfolio – SaaS Portfolio Builder

2026

- Built a multi-user SaaS platform for creating, customizing, and exporting portfolio websites from reusable component templates backed by a FastAPI REST API.
- Secured the application with JWT authentication, server-side input validation

DevRush 1.0 – E-Learning Platform | 2nd Place Competition

2025

- Created a full-stack educational platform with resource sharing and AI chatbot assistant.
- Won 2nd place in the DevRush programming competition.

ACHIEVEMENTS & CERTIFICATIONS

2nd Place – DevRush 1.0 National Programming Competition (2025)

National Finalist – FORSA Algérie Télécom Hackathon / Datathon (NABTA AI, 2025)

NVIDIA: Fundamentals of Deep Learning (2025)

HP: Fundamentals of Deep Learning (2025)

Simplilearn: CCNA Network Associate (2025); Introduction to Cyber Security (2024)

Huawei: HCIA Datacom (2025)

English Language: EFSET C1 Certificate , IELTS Academic Band 6.5

French Language: TCF C1

LANGUAGES

Arabic: Native

French: Advanced

English: Professional
